

SPIT CENTRAL LIBRARY

SPIT library is a knowledge resource center, which has an invaluable resource for the students and faculty members in the area of Engineering and Technology. It is providing effective information services to the users within a shortest possible time using SLIM library management software.

Library has a collection of more than 20000 books and subscribes to National and International periodicals along with several online journals. To aid the print versions of journals, library also has subscription of following online journals and e-books.

1. IEEE ASPP
2. ACM
3. Springer E-Books
4. Wiley E-Books

Library resources are well organized in 500 sq. meter Area, where around 150 can sit at a time and they are monitored by CCTV Cameras.

To fulfill ever growing information thirst of our students and staff, Central library has taken Institutional membership of British Council Library (BCL), Mumbai. Users can refer this library or borrow the books from it.

Library provides computer center facilities to students for Internet, Photocopying, Scanning and Printing Services.

## Library Blog

<http://spitlibrary.blogspot.in/>

- To develop an enriched collection of books and other resources to the students and staff of SPIT.
- To implement new technologies learnt for betterment of our library services.
- To see institute library as the front runner in implementing the new information and communication technologies.

### Mission:

SPIT Central Library supports the main objective of institution to build a renowned institute which will produce world class graduate engineers with social sensitivity. It is also committed to support institute's mission of providing high quality education in engineering and technology promoting Indian Values and Ethos, promoting an educational environment which will combine academic study with the excitement of intellectual curiosity, enhancing career opportunities for students, inculcating entrepreneurial mindset in students to make them job creators, focusing on applied research to create next generation technologies.

The Library is well-managed and acts as the knowledge hub of the institute. It has good quality of information resources related to engineering and technology field. It identifies, evaluates, and procures, processes then make resources available to faculty, students, and researchers to support teaching, learning and research activities of the institute.
