World Consumer Rights Day (WCRD) is an opportunity to promote the basic rights of all consumers, demanding that those rights are respected and protected, and a chance to protest against the market abuses and social injustices which undermine those rights.

WCRD was inspired by President John F Kennedy, who gave an address to the US congress on 15 March 1962, in which he formally addressed the issue of consumer rights. He was the first world leader to do so, and the consumer movement now marks that date every year as a means of raising global awareness about consumer rights. The first WCRD was observed on 15 March 1983, and has since become an important occasion for mobilising citizen action.

Celebrating the World Consumers Rights Day is with a purpose to unite consumers, a large but often fragmented section of the society, and reiterate that corporations must keep in mind their responsibility and not to break their promises or otherwise abuse the consumers who are so important to their survival. The occasion receives international attention, and is often marked with group discussions and seminars related to current events, underlying problems etc. and means to get rid of them in the consumer world.

Consumers International (CI) is the world confederation of consumer groups. Founded on 1 April 1960, it has over 250 member organisations in 120 countries. Its head office is based in London, England, with regional officers in Latin America, Asia Pacific, Middle East and Africa. This group organizes World Consumer Rights Day.
